Northern Livestock Video Auction

View online catalog and video at
www.NorthernLivestockVideo.com
Sale will be Broadcast on Dish
Network Channel 221 and will be
on the Internet. Registration to
bid needs to be done prior to the
sale. Call 1-866-616-5035 or Pre-
register at www.cattleusa.com.

Sale can be viewed on the internet with the option to use
Northern Livestock's Sale Day Bid Line: 1-406-245-0889. To bid
via the phone you must have a pre-registered buyer number.
For more information call Northern Livestock Video Auction
at 1-866-616-5035 and ask for Jackie.

Sale Order

Cattle will sell in consecutive catalog order.

Terms and Conditions

The cattle sell under the suggested terms and conditions of
the American Angus Association.

Sight Unseen Purchase Guarantee

Sale Day Phone - (406) 423-7500. Buyers unable to attend the
sale may call or send their bids to any of the Representatives
listed or directly to Stevenson Genetics. We provide a complete
satisfaction guarantee for cattle purchased in this manner.
When cattle purchased "sight unseen" are delivered, the buyer
can inspect the cattle. If they are not as represented, simply
put them back on our truck.

Transportation

Billings and Great Falls are both served by several major
airlines. Lewistown now services a direct flight from Denver
with Great Lakes Air. Private planes may land at the Lewistown
Airport. Please contact Stevenson Genetics in advance for
transportation from the Lewistown Airport.

Accommodations

The following motels are located in nearby Lewistown. For
reservations, contact either the Stevensons or the motel of
your choice. Remember to ask reservation departments for
Stevenson Genetics Sale rates.

Super 8 Motel 406-538-2581
B&B Motel 406-538-5496
Mountain View Motel1-800-862-5786
Meadow Brook B&B (Hobson) 406-423-5537
Gumbo Flats B&B (Hobson) 406-423-5565
Hughes Mountain Ranch (Stanford) 406-566-2640

Announcements

Announcements from the auction block take precedence over
any printed material.

Herd Health

All cattle will sell with proper health papers for interstate
shipment.

Payment

Payment is due in full sale day unless prior arrangements have
been made. Interest will be incurred on over due accounts.
Even if an invoice is to be sent, please check in at the office.

Delivery

See our new bull and commercial female delivery policy on
page 3. For all cattle purchased over the phone or through
Northern Livestock, Stevenson Genetics will be in contact
following the sale to arrange delivery and payment.

Inspection of Cattle

Our cattle are available for inspection at the ranches any time.
We invite you to come before the sale to visit, see the sale cattle
and view our cow herds.

INSURANCE

The insurance companies that we have worked with the last few years have discontinued "loss of use" coverage.

With the reality that sometimes young bulls become injured during their first breeding season, we have worked to come up with a fair and reasonable way to share the risk with our bull customers. With customers that wanted the "loss of use" insurance we shared one-half the premium cost for coverage on the bulls to lower your risk. We have decided to continue sharing one-half the risk during this transitional period with the breeding guarantee described to the right.

Mortality insurance will still be available. An insurance representative will be here on sale day to help you with your insurance needs.

FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$2000 or more will be covered 50% by Stevenson Genetics if they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Stevenson Genetics and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2009.

Example 1: A \$5,000 bull is injured, a credit of \$2,500 minus one-half any salvage value will be given to the buyer.

Example 2: A \$2,000 bull is injured, a credit of \$1,000 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$1,750 bull is injured, no credit is given. Buyer retains all salvage value.

How to Read the Information Printed with Each Sale Lot

Complete performance information is provided for each animal. The ratios are calculated in separate contemporary groups by ranch and conditions they were raised under, so that a ratio of 100 will not necessarily correlate to the same weight between the different groups. We have calculated interim EPDs for cattle that do not yet have official EPDs. Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +40 weaning EPD should average 10 pounds more than those sired by a bull with a +30 weaning EPD.

Birth Weight (actual).
205 and 365 Weight are weaning and yearling weights adjusted to 205 and 365 days allowing comparison of individuals.
Weaning Ratio and **Yearling Ratio** as computed for use in *within-herd* comparisons. Animals produced by embryo transplant will have an "ET" in place of a ratio.
Dam Production is the number of calves and average nursing ratio for all calves raised by the dam of the animal, the average cow being 100.

Birth (BW) EPD is a predictor of progeny birth weight attributed to the parent.

Weaning (WW) and Yearling (YW) EPDS are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

Milk EPD is a predictor of an animal's genetic merit for milk and mothering ability.

- Calving Ease Rating (CE)**
- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
 - ★★★ Superior calving ease, should work with most heifers and most situations.
 - ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
 - ★ We recommend these bulls just for use on cows.

SB (Beef Value)
 An index value expressed in dollars per head, the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires.

EPDs for Carcass Merit based on the Ultrasound Evaluation System

Marb EPD
 Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

RE EPD
 Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

CATTLE DELIVERY

Stevenson Genetics is adding a delivery section to check-out this year. We encourage all of you to stop by and coordinate plans before leaving the Sale. If you are buying off-site, please let us know of any special instructions as soon as you can. Otherwise, the Delivery Department will contact you regarding date of delivery. Our goal is to have all non-wintered cattle delivered by December 15. Your cooperation on taking delivery is greatly appreciated.

Commercial Female Delivery

All Commercial females must be delivered within 2 weeks of the sale. They have been tested negative for Brucellosis prior to the sale, and the test is only valid for 30 days. Stevenson Genetics will help to arrange trucking if you would like, or we can provide truckers names and numbers for you. Your cooperation is appreciated on taking delivery in this timely manner.

Bull Delivery

Stevenson Genetics would like to deliver all the cattle personally, however due to the cost of travel, we employ reputable trucking firms to assist us in the delivery process. Our goal with the current delivery policy is to limit the number of stops the cattle have to make before their final destination. We also need to keep the cost of delivery reasonable enough to continue the current policy. Thank you for your understanding.

Stevenson Genetics will help coordinate delivery of all cattle as soon as possible after the sale. All two year olds need to be delivered within 30 days of the sale, unless prior arrangements have been made. All the bulls have various testing requirements that are timely. We will deliver free to Central points west of the Mississippi. East of the Mississippi a nominal drop fee of \$150 per bull will be charged. We would still like to coordinate a central point to reduce the number of stops your cattle have to make before arriving to you. Your cooperation would be appreciated on this matter.

Central points will not be designated until we can see where cattle are going as we try to accommodate all cattle on the load. We choose Stockyards, Vet clinics, and select ranches that can accommodate the semi truck and multiple head of cattle. The Delivery Department will call prior to coming to make this spot known. If you have suggestions to a central point, please let us know. Please note, all charges incurred at the said central point will be yours.

Again, we thank you in advance for your assistance and cooperation on this matter. It will keep the bulls from being on the truck too long and therefore allowing your bulls to arrive to their new home in the best condition possible.

Let Us Know . . .

In the interest of better serving you, our customers, we are making every effort to better expose Stevenson Genetics through our customers. We are constantly networking with many order buyers and feedlots, the next level of our segmented industry. Through a more collaborative working effort, between ourselves (the seedstock provider), yourself (the commercial producer) and the feeding sector; we can eventually close the gap and meet the demand for a more consistent and high quality product, our most rudimentary obligation.

Let us know when you get ready to market your calves. Whether you sell them in the country, through a barn or on the video, we can assist in your marketing needs and give you some added market exposure. Many feeders are looking to Stevenson Genetics for superior groups of cattle.

Don't let 'em leave home without one!

If you have calves to market, don't let them leave home without an AngusSource® tag. AngusSource adds value to your Angus-sired feeder cattle and replacement heifers by:

- Guaranteeing Angus genetics
- Verifying source and age
- Opportunity to qualify for Certified Angus Beef® regardless of hide color.

Visit www.angussource.com
or call 816-383-5100 for more information.

Longest Established Annual Bull Sale

Fellow Cattleman,

We sincerely appreciate your interest in these bred females and certainly believe this offering emphasizes our foremost efforts in genetic progression. As in the past, our goal is to emphasize quality in volume. This is a premier set of fall calvers offering plenty of selection, outstanding cattle, flexible calving dates all following proper health protocol.

We would like to welcome our long-time customer and friend Page Anderson of the CA Ranch. Another top set of CA bred heifers will be a featured highlight.

Cattle are still being sorted and pre checked, so HEAD COUNTS MAY VARY on sale day. Expect more detailed information closer to sale time.

We thank you in advance for your participation and look forward to seeing you on sale day.

Sincerely,

The Stevenson Crew

BRED FEMALES

Bred females will sell in Lot order immediately following the conclusion of the bull sale.

Terms and Conditions for Bred Commercial Females

1. Bred females will be sorted and sold according to age, size, ranch origin and calving date.
2. The buyer has the option of five head up to the entire grouped lot. Lowest consecutive tag numbers will be the sort on Stevenson Angus and Diamond Dot females. The CA heifers will be a gate sort.
3. They have been set up with Preg Guard Gold 10 vaccine guidelines with pre breeding shots.
4. They have been poured with Dectomax or Ivomec.
5. All females have legible BANGs tag numbers, silver identification tag or registration tattoos.
6. All females have documented ear notch biopsy BVD-PI negative results.
7. All females are tested negative for Brucella Abortus.
8. All females will be preg checked safe with calf by a licensed veterinarian prior to sale.
9. All females are descended from Stevenson Genetics' bloodlines and bred to Stevenson Genetics bulls.
10. Females will be available for viewing in sale lots at Stevenson Genetics Monday of sale week. They can be viewed at www.northernlivestockvideo.com on a per lot basis any time prior to the sale. DVDs are available upon request.
11. Stevenson Genetics will assist with arranging trucks for delivery and providing appropriate health paperwork.
12. Delivery cost is at the buyer's expense.
13. Purchase payment is due on sale day.

BRED FEMALES

Bred females will sell in Lot order immediately following the conclusion of the bull sale.

A 22 Bred Heifers from the Stevenson Angus Ranch

Est. Avg. Wt: 1100#

Calving Due Date: August 31, 2009

AI Sire: 21AR Roundup 7005

An excellent set of Angus heifers bred to our junior herd sire ROUNDUP. These heifers are out of the registered Stevenson Angus herd. Registration papers are available for an additional \$250 per head above final bid price.

B 36 Bred Cows from the Stevenson Angus Ranch

Est. Avg. Wt: 1450#

Calving Due Date: August 31, 2009

AI Sire: 21AR Roundup 7005

AI bred cows from the registered Stevenson Angus herd. Sorted according to age, the first 21 are three and four year olds, the next 15 range from five to eight years old. Registration papers are available for an additional \$250 per head above final bid price.

C 5 Bred Heifers from the Diamond Dot

Est. Avg. Wt: 875#

Calving Due Date: September 1 for a week

Fall born heifers with four of the five carrying heifer pregnancies. They are bred to 21AR BIG SPREAD. Registration papers are available for an additional \$250 per head above final bid price.

D 14 Bred Heifers from the Diamond Dot

Est. Avg. Wt: 875#

Calving Due Date: October 1 for three weeks

Fall born heifers, bred to PAF ND EXCEL 878. Registration papers are available for an additional \$250 per head above final bid price.

E 30 Bred Heifers and Cows from the Stevenson Angus Ranch and Diamond Dot

Est. Avg. Wt: 1350#

Calving Due Date: September 15 for three weeks

Registered bred females, they were pasture bred to KMK ALLIANCE I87 N24 or PAF ND EXCEL 878. The first 16 are two (bred heifers) and three year olds with the remaining 14 ranging from four to seven. Registration papers are available for an additional \$250 per head above final bid price.

F 130 Bred Heifers from the CA Ranch

Est. Avg. Wt: 1050#

Calving Due Date: September 23 to September 28 for AI bred heifers. Pasture exposed will calve through October.

AI Sire: Stevenson Benchmark N190

Feminine, moderate heifers from a program that produces functional cows that thrive in low-input, low-labor operation while still producing a high value calf. Feet, udder, disposition culled without exception. Herd is backed by 18 years of AI program. These should mature at 1200-1300 lbs. They will be sorted and sold according to preg check results closer to sale date.

18 - 24 MONTH OLD BULLS

We have been developing and expanding our fall calving herd in order to provide more of these older age bulls for this spring sale each year.

The 18 month old bulls wintered in a 30 acre pasture with plenty of room to roam. The fall two year olds were held specifically for this sale. Many of them were used in natural service last year. Footnotes will indicate non-virgin bulls.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test. All bulls offered in the sale have tested BVD-PI negative. All non-virgin bulls are indicated in the footnotes and have been trich tested per current Montana requirements. Current weights and scrotal measurements will be available on sale day.

For buyers wishing to purchase closely related bulls, many full, three-quarter and one-half brothers are offered in this sale. This line-up includes:

16 sons and grandsons of FOCUS

12 RAINMAKER sons and grandsons

12 FRANCHISE bred bulls

10 MAX 602C sons and grandsons

RETAINED INTEREST – we are selling FULL POSSESSION and ½ REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining ½ revenue-sharing semen interest simply allows Stevenson Genetics the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact any Stevenson Genetics representative.

1 **DIAMOND FRANCHISE 51T2**

BW	+1.1	WW	+60	Milk	+28	YW	+102
CE	★★★	Marb	+0.41	RE	+0.46	SB	56.41

LOT 1 is a calving ease bull that recorded the highest weaning ratio from our fall calves and has herd sire potential with a 136 IMF and 110 REA ratio. He ranks in the top 2% for WW and \$W, top 5% for YW, MILK, and REA, top 10% for \$F and \$B. LOT 1's maternal grandam was a powerful donor cow that recorded 6 NR 107 and her dam 4 NR 109.

BW	+2.9	WW	+59	Milk	+23	YW	+106
CE	★★	Marb	+0.31	RE	+0.18	SB	44.72

One of the sale highlights, LOT 4 is a lead-off herd bull prospect. Sired by the \$810,000 valued Moneymaker, LOT 4 offers an impressive phenotype with a fresh pedigree. His dam is a full sister to MATRIX, the featured Genex herd sire and from the proven Pure Pride cow family. She is an ideal Angus cow with a perfect udder. LOT 4 ranks in the top 3% for both WW and YW EPDs.

Announcing the

STEVENSON GENETICS

HIGH ALTITUDE BULL OFFERING

100 + Bulls Available

***Bulls are on test at 7200' in Laramie, WY and will be
PAP tested by Dr. Tim Holt late March***

Watch for updates or call for April sale information

Two Year Old Bulls

YEARLING BLACK ANGUS BULLS

These Yearling Angus Bulls represent our most progressive genetics born in 2008. This offering is comprised of the January and February bull calves out of our first calf females, select ET bulls saved for this sale, and bulls raised from cows outside of the headquarter ranches near Hobson. Bulls born after March 1st are saved to be developed and sold as two-year olds.

These calves were raised from birth to weaning with no creep feed. After weaning, the calves are fed a high roughage growing ratio.

Weaning weights were taken in early September and yearling weights were taken the last week of January. Complete performance information is provided for each bull. An explanation of the performance information is printed on page 3. The ultrasound EPD's listed in the catalog are the current EPD's after scanning. These bulls are ratioed in different contemporary groups by ranch and by the conditions they were raised under, so a ratio of 100 will not necessarily correlate to the same weight between the different groups.

These bulls are guaranteed breeders and have all passed a breeding soundness exam including a semen test. Scrotal measurements will be available sale day.

RETAINED INTEREST - We are selling **FULL POSSESSION** and **1/2 REVENUE-SHARING SEMEN INTEREST** in every bull in this sale. The bull you purchase is totally in your control regarding how you handle the bull and your natural service use. You receive 100% of the salvage value. Retaining a 1/2 revenue-sharing semen interest simply allows Stevenson / Basin the right to share in collection of semen, use of semen from the bull in our herds and the right to share in semen sale revenue if semen sales become a possibility on the bull.

Realistically, we will collect semen on only a small percentage of the bulls selling. It will be an even smaller number of bulls that will develop a market for semen sales. However, we are retaining an interest in every bull because we might identify the next great bull after he has sold, often later in life, after he has proven himself in the breeding pasture. If you have any questions or concerns about our retained interest policy, please talk to any of us listed as representatives on page 1 of this catalog for further explanation.
