Terms and Conditions

The cattle sell under the suggested terms and conditions of the American Angus Association.

Sight Unseen Purchase Guarantee

Buyers unable to attend the sale may call or send their bids to any of the Sales Staff or to Stevenson Genetics. We provide a complete satisfaction guarantee for cattle purchased in this manner. When cattle purchased "sight unseen" are delivered, the buyer can inspect the cattle. If they are not as represented, simply put them back on our truck.

Sale Day Bid Line: Will be given at the time of pre-registering. To bid via the phone you must have a pre-registered buyer number.

Pre-Register and for Additional Information

Call: Superior Livestock at 800-431-4452

Announcements

Announcements sale day take precedence over any printed material.

Herd Health

All cattle will sell with proper health papers for interstate shipment. Brand inspector and veterinarian will be available sale day for transport or health questions.

Payment

Payment is due in full sale day unless prior arrangements have been made. Interest will be incurred on over due accounts.

Inspection of Cattle

The cattle are available for inspection at the Thorbardin Ranch. Contact Cody Talbott at 307/ 760-5914.

Delivery

In respect to the Thorbardin Ranch, we will try to deliver everything within a week of the sale pending interstate health restrictions. Everyone is welcome to bring their trailer, pick up your bulls and receive a \$50 discount per bull, this of course pending interstate health requirements.

WELCOME TO STEVENSON GENETICS

100 + PAP Tested Bulls

***Bulls were wintered at 7250' in Laramie, WY
and PAP tested by Dr. Tim Holt***

Bull Development

Bulls were all raised and developed at our headquarter ranches in Montana. They were performance tested with yearling weights and ultrasound data taken in January. They were then shipped to Laramie mid-February to be wintered on a maintenance ration. After six weeks at that elevation, Dr. Tim Holt felt confident in an accurate PAP test which was taken March 25.

Sale Order To be announced April 13.

EPDs EPDs are current as of printing. Updated EPDs can be viewed at www.Angus.org

FIRST YEAR BREEDING GUARANTEE

All bulls selling for \$2000 or more will be covered 50% by Stevenson Genetics if they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Stevenson Genetics and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2010.

Example 1: A \$5,000 bull is injured, a credit of \$2,500 minus one-half any salvage value will be given to the buyer.

Example 2: A \$2,000 bull is injured, a credit of \$1,000 minus one-half of any salvage value will be given to the buyer.

Example 3: A \$1,750 bull is injured, no credit is given. Buyer retains all salvage value.

Bull Lot Information

Birth (BW) EPD is a predictor of progeny birth weight attributed to the parent.

Weaning (WW) and Yearling (YW) EPDs are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

Milk EPD is a predictor of an animal's genetic merit for milk and mothering ability.

Marb EPD Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

RE EPD Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Calving Ease Rating (CE)

- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
- ★★★ Superior calving ease, should work with most heifers and most situations.
- ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
- ★ We recommend these bulls just for use on cows.

PAP Scores Scores were taken March 25 by Dr. Tim Holt at 7250' elevation.

RANCH RAISED BULLS

These Yearling Angus Bulls represent our most progressive genetics born in 2010. These calves were raised from birth to weaning with no creep feed. After weaning, the calves are fed a high roughage growing ratio.

Weaning weights were taken in early September and yearling weights were taken the last week of January. The ultrasound EPDs listed in the catalog are the current EPDs after scanning.

These bulls are guaranteed breeders and have all passed a breeding soundness exam including a semen test. Scrotal measurements will be available sale day.

RETAINED INTEREST – We are selling **FULL POSSESSION** and **1/2 REVENUE-SHARING SEMEN INTEREST** in every bull in this sale. The bull you purchase is totally in your control regarding how you handle the bull and your natural service use. You receive 100% of the salvage value. Retaining a 1/2 revenue-sharing semen interest simply allows Stevenson Genetics the right to share in collection of semen, use of semen from the bull in our herds and the right to share in semen sale revenue if semen sales become a possibility on the bull.

Realistically, we will collect semen on only a small percentage of the bulls selling. It will be an even smaller number of bulls that will develop a market for semen sales. However, we are retaining an interest in every bull because we might identify the next great bull after he has sold, often later in life, after he has proven himself in the breeding pasture. If you have any questions or concerns about our retained interest policy, please talk to any of us listed as representatives on page 1 of this catalog for further explanation.
