### **Sale Location**

Thorbardin Ranch west of Laramie, WY 14 miles on I80, exit 297. Turn east on Herrick Lane 1.2 miles, turn left onto Sprague Lane, next right take Carroll Lake Road 3.5 miles to the ranch.

### **Sale Staff**

Blake Nuffer ..... Northern Livestock Video  
Andy Rest ..... American Angus Association

### **Sale Procedure**

The sale will be conducted as a silent auction. Start bid will be at 10 am with final bid procedure at 2 pm. Concealed bids will be submitted on a per lot basis. Bids will be taken in \$250 increments. Tie bids or bids within \$250 of the high bid will be opened up to a quick auction between those bidders. Highest bidder owns the bull. All bulls are floored at \$1500. They will sell at \$1500.

### **Terms and Conditions**

The cattle sell under the suggested terms and conditions of the American Angus Association.

### **Sight Unseen Purchase Guarantee**

Buyers unable to attend the sale may call or send their bids to any of the Sales Staff or to Stevenson Genetics. We provide a complete satisfaction guarantee for cattle purchased in this manner. When cattle purchased "sight unseen" are delivered, the buyer can inspect the cattle. If they are not as represented, simply put them back on our truck.

### **Announcements**

Announcements sale day take precedence over any printed material.

### **Herd Health**

All cattle will sell with proper health papers for interstate shipment. Brand inspector and veterinarian will be available sale day for transport or health questions.

### **Payment**

Payment is due in full sale day unless prior arrangements have been made. Interest will be incurred on over due accounts. Even if an invoice is to be sent, please check in at the office.

### **Delivery**

In respect to the Thorbardin Ranch, we will try to deliver everything within a week of the sale pending interstate health restrictions. Everyone is welcome to bring their trailer, pick up your bulls and receive a \$50 discount per bull, this of course pending interstate health requirements.

### **Inspection of Cattle**

The cattle are available for inspection at the Thorbardin Ranch. Contact Cody Talbott at 307/ 760-5914.

### **Bull Development**

Bulls were all raised and developed at our headquarter ranches in Montana. They were performance tested with yearling weights and ultrasound data taken in January. They were then shipped to Laramie mid-February to be wintered on a maintenance ration. After six weeks at that elevation, Dr. Tim Holt felt confident in an accurate PAP test which was taken March 28.

# FIRST YEAR BREEDING GUARANTEE

---

All bulls selling for \$2000 or more will be covered 50% by Stevenson Genetics if they are injured during their first breeding season and not able to return to service during that first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Stevenson Genetics and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2009.

*Example 1:* A \$5,000 bull is injured, a credit of \$2,500 minus one-half any salvage value will be given to the buyer.

*Example 2:* A \$2,000 bull is injured, a credit of \$1,000 minus one-half of any salvage value will be given to the buyer.

*Example 3:* A \$1,750 bull is injured, no credit is given. Buyer retains all salvage value.

## Bull Lot Information

---

**Birth (BW) EPD** is a predictor of progeny birth weight attributed to the parent.

**Weaning (WW) and Yearling (YW) EPDS** are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

**Milk EPD** is a predictor of an animal's genetic merit for milk and mothering ability.

**Marb EPD** Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**RE EPD** Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

### Calving Ease Rating (CE)

- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
- ★★★ Superior calving ease, should work with most heifers and most situations.
- ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
- ★ We recommend these bulls just for use on cows.

**PAP Scores** Scores were taken March 28 by Dr. Tim Holt at 7250' elevation.

# STEVENSON GENETICS

PO BOX 272  
HOBSON, MT 59452

[WWW.STEVENSONGENETICS.COM](http://WWW.STEVENSONGENETICS.COM)

Fellow Cattleman,

We would like to formally announce our first ever **High Altitude Bull Offering** on Friday, April 17 in Laramie, Wyoming. As many of you know, we are already quite busy with two production sales at home along with year round private treaty bull sales. We have several reasons for branching out with a specialized offering.

Our basic philosophy and course of action would be remiss without mentioning our longtime good friend and main influence behind this market, Gary Parker of Shamrock Angus. Gary was a lifetime friend, worked with us for several years and eventually built the Shamrock herd into a much respected herd suitable for the challenges at higher altitudes. With Gary's knowledge and resilience as a breeder and the guidance of Dr. Tim Holt's PAP testing, all cattlemen are now benefitting from the years of research and testing. The entire industry suffered a great loss with the passing of Gary and his leadership. The ultimate dispersal of the Shamrock herd further emphasized that loss.

Today, we have several customers in Colorado, Utah and Wyoming that request bulls suitable for higher altitudes. Our home ranches run at about 4500 feet, much too low for an accurate PAP test. For several years we have tried to service these customers with guarantees, replacement bulls and unnecessary time and expense. It wasn't cost prohibitive.

We view this as an opportunity to upgrade our customer service and provide a fully tested product. Of course, we welcome the opportunity to meet new friends and possible customers, but our primary concern is to better service our already existing customer base.

This bull offering was selected in January prior to our home spring bull sale. The bulls were

raised on our home ranches in Montana, weaned and performance tested through January when yearling weights and ultrasound scan data were collected. The bulls all passed a fertility test before being shipped to the Thorbardin Ranch west of Laramie mid-February. The bulls are on a maintenance ration and were PAP tested by Dr. Tim Holt late March. They will not be clipped, primped or pampered for this sale.

The bulls selected for this offering represent a cross-section of Stevenson Genetics. In the sense of any other bull sale, we tried to select from our larger sire groups however leaned heavily towards pedigrees that have been relatively successful for PAP testing in the past. This is a learning process and we are fully prepared to analyze and utilize all of the data, strengths and weaknesses alike. If these efforts are viewed in success, we are interested in further pursuing additional PAP testing and sale offerings. We are open to your thoughts and welcome your input.

The bull sale on April 17 will be held at the Thorbardin Ranch and will be conducted as a silent auction with starting bid at 10:00 a.m. and final bids at 2:00 p.m. Darrell will have a short presentation with introductions during the noon hour. Blake Nuffer of Northern Livestock will conduct the sale process. We prefer a casual setting without the rush of a live auction, so come have lunch and enjoy the day.

We'd like to take this opportunity to extend our sincerest appreciation to Cody and Katie Talbott and the rest of the crew at the Thorbardin Ranch. As you will see, the bulls have been well cared for, and we are excited to be working with such an enthusiastic group.

We look forward to seeing you sale day, shaking your hand and discussing good Angus cattle.

Best regards,

*The Stevenson Crew*

# RANCH RAISED BULLS

---

These Yearling Angus Bulls represent our most progressive genetics born in 2008. This offering is comprised of the January and February bull calves. Bulls born after March 1<sup>st</sup> are saved to be developed and sold as two-year olds.

These calves were raised from birth to weaning with no creep feed. After weaning, the calves are fed a high roughage growing ratio.

Weaning weights were taken in early September and yearling weights were taken the last week of January. The ultrasound EPDs listed in the catalog are the current EPDs after scanning.

These bulls are guaranteed breeders and have all passed a breeding soundness exam including a semen test. Scrotal measurements will be available sale day.

**RETAINED INTEREST** – We are selling **FULL POSSESSION** and **1/2 REVENUE-SHARING SEMEN INTEREST** in every bull in this sale. The bull you purchase is totally in your control regarding how you handle the bull and your natural service use. You receive 100% of the salvage value. Retaining a 1/2 revenue-sharing semen interest simply allows Stevenson Genetics the right to share in collection of semen, use of semen from the bull in our herds and the right to share in semen sale revenue if semen sales become a possibility on the bull.

Realistically, we will collect semen on only a small percentage of the bulls selling. It will be an even smaller number of bulls that will develop a market for semen sales. However, we are retaining an interest in every bull because we might identify the next great bull after he has sold, often later in life, after he has proven himself in the breeding pasture. If you have any questions or concerns about our retained interest policy, please talk to any of us listed as representatives on page 1 of this catalog for further explanation.

 MARB **(.44)** RE **-.13** \$W **26.65** \$F **(49.04)** \$G **14.81** \$B **45.06**

- ★ The sensation of 2007, **MONEYMAKER** topped our sale at \$100,000 and then went on to be re-syndicated at Express' Big Event for a total valuation of \$810,000
  - ★ Sons topped three consecutive Stevenson Genetic Sales at \$30,000, \$32,500 and \$42,000.
  - ★ **MONEYMAKER**'s dam sold half interest in our 2007 Sale for \$50,000 for a total valuation of \$100,000 and is now serving as a donor for Dubas Cattle Company.
  - ★ **MONEYMAKER** is alive and well, however a long term damaging injury to his testicles has limited frozen semen production. He is continually being used in natural service.
- Co-owned with Express Ranches of OK, Limestone LLC of OK, KCS of MT and MO, Deer Valley Farms of TN, Sandpoint Cattle Co. of NE, 44 Farms of TX and Thunder Creek Angus of SK.*
