Announcements

Announcements from the auction block take precedence over
any printed material.

Herd Health

All cattle will sell with proper health papers for interstate
shipment.

Payment

Payment is due at time of sale and no livestock shall
be delivered until payment is received in full or other
arrangements are made in writing. In the event Seller incurs
attorney fees and costs for collection of payment, Purchaser
shall pay the purchase price, interest at the statutory rate and
all costs and attorney fees for collection. Past due accounts
will be subject to 2% interest per month.

Delivery

See our bull delivery policy on page 6. For all cattle
purchased over the phone or through Superior, Stevenson
Angus will be in contact following the sale to arrange
delivery. Full payment required before delivery of cattle.

Inspection of Cattle

Our cattle are available for inspection at the Ranch any time.

Food

Lunch will be served on sale day.

Terms and Conditions

The cattle sell under the suggested terms and conditions of
the American Angus Association.

Home of America's

Longest Established Annual Bull Sale

Fellow Cattlemen,

It is with great pride and appreciation that we invite you to our 56th Annual Production Sale. We've had a great year in Central Montana. The winter and spring weather was in our favor and the family is doing well.

What a fantastic time to be in the Angus business! These cattle are simply proving to do more and faster than ever before. Demand is surging. Certified Angus Beef proudly announced another record year marketing 1.015 BILLION pounds of product in fiscal year 2016. Acceptance rate has also climbed to 28.9% up 14 points from a decade ago. Herd building has obviously been positively influenced with Angus genetics. Customer feedback has been tremendous with one of our most loyal customers reporting 100% Choice or better with over 70% CAB acceptance, for the third year in a row.

Most everyone has heard the quote "tough times don't last, but tough people do." It'll sure help if you've got the right genetics or more so the right cows to pull you through. No doubt, agriculture is being challenged, however be assured the new generation Angus will get you further, faster.

Our diligent effort to prove new generation herd bulls has identified a couple of young studs. Look up the STEVENSON CATALYST 41066 and STEVENSON CATALYST 41044 first available progeny in this offering. They've both proven to sire quick, early growth cattle that are doing a lot of things right. Our standby STEVENSON ROCKMOUNT RX933 and HF REBEL 53Y sire groups are still catching serious attention while our deceased herd sire STEVENSON RITO GS172 now has daughters proving to be some of our best cows ever. Some of his final progeny will be represented.

The bred females in this offering come right out of the registered herd. Sorted by age and calving date, expect to build a herd around their production. You'll search far and wide to find more history and productive potential.

We're extremely confident with this offering and certain you will be as well! We truly welcome your visit and appreciate your continued support and interest.

Keith Darrell Bob Jake

The family and crew of Stevenson Angus Ranch

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 8-20 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	21	Docility	12
Birth Weight	13	Heifer Pregnancy	10
Weaning Weight	19	Mature Weight	13
Yearling Weight	22	Carcass Weight	10
Milk	14	Carcass Marbling	9
Yearling Height	11	Carcass Rib	11
Yearling Scrotal	14	Carcass Fat	12
Dry Matter Intake	18		

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo or those of partnering labs Zoetis (HD50K, i50K) or GeneSeek (GGP-HD, GGP-LD). These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs.

www.angus.org

HOW TO READ THE SALE LOT INFORMATION

Expected Progeny Difference (EPD) is the estimate of how future progeny of each sire are expected to perform in each of the traits listed. EPD is expressed in pounds, either plus or minus. For example, when used on the same cows, calves sired by a bull with a +50 weaning EPD should average 10 pounds more than those sired by a bull with a +40 weaning EPD. We have calculated interim EPDs for cattle that do not yet have official EPDs. EPDs are current as of catalog printing. Updated EPDs can be viewed at www.angus.org

Calving Ease Direct (CED) EPD

is expressed in percentage of unassisted births, predicting the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

Birth (BW) EPD

is a predictor of progeny birth weight attributed to the parent.

Weaning (WW) and Yearling (YW) EPDS

are predictors of the animal's ability to transmit weaning growth and yearling growth to its progeny.

Milk EPD is a predictor of an animal's genetic merit for milk and mothering ability.

Scrotal Circumference (SC) EPD

expressed in cm., is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

TOP 10% \$W	TOP 10% \$F	TOP 20% \$B		

Marbling (Marb) EPD

is expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

Ribeye Area (RE) EPD

expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat Thickness (Fat) EPD

expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib of a sire's progeny compared to progeny of other sires.

Index values are expressed in dollars per head

Weaned Calf Value (\$W) is the expected average difference in future progeny performance for preweaning merit and includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F) is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Grid Value (\$G) is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B) is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Calving Ease Rating (CE)

- ★★★★ Excellent calving ease, use with confidence on any type of heifers.
- ★★★ Superior calving ease, should work with most heifers and most situations.
- ★★ Moderate calving ease, most people will use these bulls on cows, but they can be used on heifers if calving ease is of less concern.
- ★ We recommend these bulls just for use on cows.

CATTLE DELIVERY

We encourage all of you to stop by and coordinate delivery plans before leaving the Sale. If you are buying off-site, please let us know of any special instructions as soon as you can. Otherwise, we will contact you regarding date of delivery. Your cooperation in taking delivery is greatly appreciated.

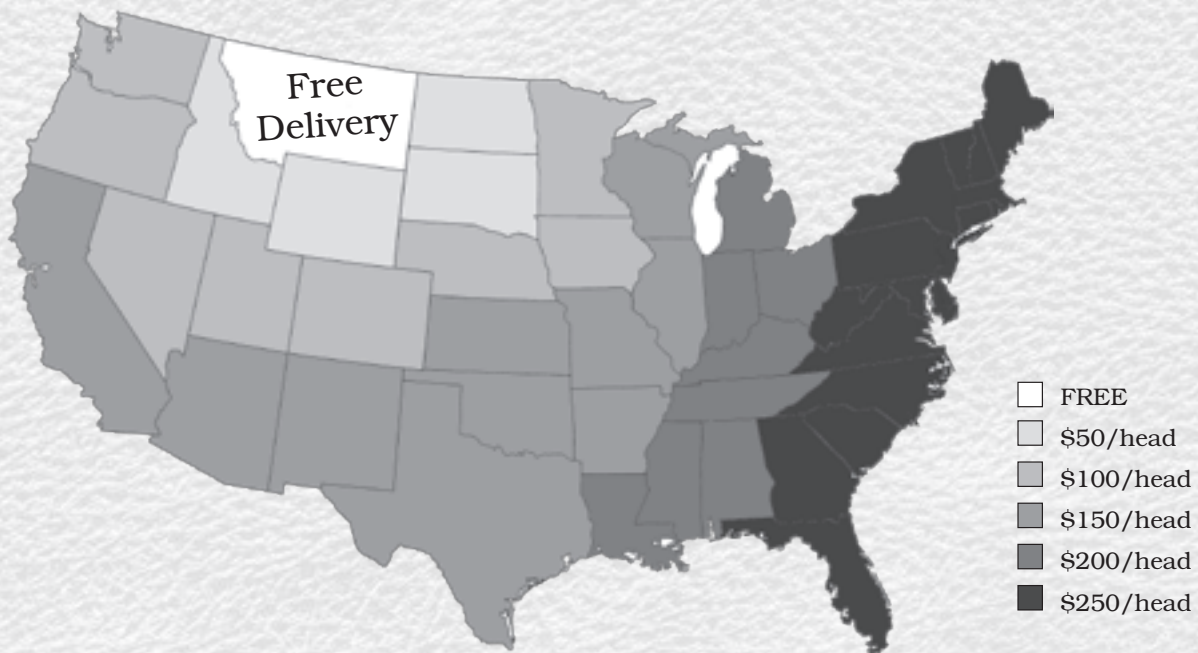

Bull Delivery

We are happy to announce that after 50+ years of selling bulls, we are still delivering in Montana for free. We charge a nominal delivery charge for the surrounding tiers of states. Please use the map below to determine this charge. We would like to emphasize that we do our best to keep delivery costs to a minimum and we are offering a volume discount if you can assist in creating full loads with minimal drops.

The delivery cost will be added to invoice at check out.

We will continue to offer a pickup credit of \$100 per head for all bulls picked up within 7 days of the sale.

To our neighbors to the north, we are happy to bring you your bulls, however due to increasing scrutiny at the border, having the Canadian resident present, eases the process. If meeting at the border is not possible, we ask to share in a portion of crossing fees. For that reason, we are charging \$100 to our Canadian friends. Thank you for understanding.

FIRST YEAR BREEDING GUARANTEE

In lieu of a commercial "loss of use" policy, we would like to offer our own First Breeding-year Guarantee. For bulls selling for \$5000 or more, and does not complete a full breeding season, we will share in the replacement cost up to 50% of the value of the injured bull. Breeding season is defined as 90 days after turning out the bulls.

50% of the value of the injured bull, minus salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2017.

Example 1: An \$8,000 bull is injured, a credit of \$4,000 minus any salvage value will be given to the buyer.

Example 2: A \$6,000 bull is injured, a credit of \$3,000 minus any salvage value will be given to the buyer.

Example 3: A \$4,000 bull is injured, no credit is given. Buyer retains all salvage value.

Applicable credits honored from our Breeding Guarantee are to be used within one year of submission.

STEVENSON ANGUS RANCH

REWARDS

We would like to offer two forms of discounts, one to our faithful year-in and year-out customers and the other to our volume purchasers.

LOYALTY REWARD

We would like to honor our customer's loyalty with a 5% discount on every bull purchased by any single customer that has purchased bulls in TWO consecutive sales prior to this offering. In order to qualify, purchases need to have been made from both of our sales in Hobson from the Fall 2015 and Spring 2016 offerings.

VOLUME REWARD

In respect to our volume purchasers, we would like to offer a 50% discount on delivery cost to buyers of 10 to 19 bulls. For anyone purchasing 20 or more bulls, complete delivery is for free.

Any and all discounts will only be honored with full remittance of purchase payment on sale day. Discounts are only applicable to bull sales. Female purchases are not subject to the Stevenson Angus Rewards offer.

Applicable credits honored from our Breeding Guarantee are to be used within one year of submission.

Bull mortality and loss-of-use coverage in case you need it.

PayneWest
INSURANCE

PayneWest offers a unique one-year policy for 10% of the purchase price on bulls valued up to \$1,000,000 with 100% mortality payout, 80% loss-of-use claim payout.

- Proven breed leading CED and BW EPDs, he's a sure-fire calving ease sire.
- Added muscle and shape, ROCKMOUNT adds performance and carcass.
- Daughters catching attention. Very consistent and nice fronted, he stamps them all the same.
- Family history – as the last son of one of the truly powerful cows of the breed, ROCKMOUNT is also a maternal brother to STEVENSON HERO I216U and STEVENSON CE DELUXE 1914.
- Commercially driven, his sons are consistently proving to be the top selling sire group for Stevenson Angus.
- Customer satisfaction, every AI project and ROCKMOUNT bull customer have come back for more!
- Good feet, the older he gets, the more impressive he becomes!
- ROCKMOUNT is drawing attention near and far, proving to be our top seller domestically and internationally.
- Key contributor for ABS Global as a TOP TEN seller the last two years.
- Co-owned with ABS Global. Semen is available through ORigen, ABS or Stevenson Angus.

- Compelling outcross, REBEL is unmatched for uniqueness of pedigree, data and kind. He's the legitimate outcross the industry has been searching for, offering a pedigree that can be mated with virtually every common bloodline in America today. Mating flexibility is unlimited!
- Truly impressive phenotype, structure, disposition and scrotal development. Unmatched length of top, body dimension and muscle shape.
- Maternal strength, REBEL descends from a top cow family. His dam is a beautifully uddered, correct made DONE RIGHT daughter.
- Real time EPDs, no other outcross bloodline has proven to be as competitive for the birth to weaning EPD spread. Moderate BW with impressive growth, his progeny continually top their contemporaries.
- Very good feet, REBEL is structurally superb.
- First daughters are doing a tremendous job, well above average for production with beautiful udders and extra body length.
- Commercial demand, his sons averaged \$9,600 in the Stevenson Angus Fall Sale.
- High selling bull in Canada in 2012 at \$95,000.
- Co-owned with TC Ranch of NE, Green Angus of MT and Hamilton Farms of AB.
- Semen available through ORigen and Stevenson Angus.

- Power and volume, 3181 is a new generation performance sire adding tremendous internal dimension and muscle.
- Very sound and athletic, he is an easy fleshing individual. An ideal bull in his working clothes.
- A growth trait leader for both WW EPD and YW EPD. Added muscle with extra RE EPD. Trait leading \$B.
- Tested against heavy weight AI sires, 3181's natural service calves topped them all for performance, leading off our Fall 2015 offering with LOTs 101, 102 and 103.
- Initial progeny proof is very impressive; look for 3181 to be a big part of our future.

- Sure fire calving with quick early growth. Trait leading WW and YW EPDs
- Sure footed, great disposition with an impressive libido and ability to cover cows
- Outstanding dam, she is one of our best, a GS172 daughter chosen to serve in our donor program. Look for a strong maternal influence
- Co-owned with Julie Wichman, Moore, MT
- Destined to be a calving ease favorite, look for his considerable future influence

Longest Established Annual Bull Sale

Interested Commercial Female Buyers,

We sincerely appreciate your interest in these bred females and certainly believe this offering emphasizes our foremost efforts in genetic progression. As in the past, our goal is to emphasize quality in volume. This is a premier set of females offering plenty of selection, outstanding cattle, flexible calving dates all following proper health protocol.

These bred females will sell immediately following the conclusion of the bull sale. Understand that minor changes in lot numbers will take place. Look for those updates on sale day.

If you have any further questions don't hesitate to contact us.

Sincerely,

The Stevenson Family

Bred commercial females sell immediately following the bulls

Terms & Conditions for Bred Commercial Females

1. Bred females will be sorted and sold according to age, size and calving date.
2. The buyer has the option of five head up to the entire grouped lot.
3. They have been set up with Preg Guard Gold 10 vaccine guidelines. Heifers received first shot prior to breeding and second shot after November 1.
4. They have been poured with Dectomax after November 1.
5. All females have legible BANGs tag numbers, silver identification tag or electronic IDs.
6. All females have documented ear notch biopsy BVD-PI negative results.
7. All females will be preg checked safe with calf. They will be preg checked by a licensed veterinarian.
8. Females will be available for viewing in sale lots at Stevenson Angus as early as November 20. They can be viewed at www.StevensonAngus.com on a per lot basis any time prior to the sale.
9. Interested buyers must register for buyer numbers with Stevenson Angus at 406-423-7500 or Superior Livestock at 1-800-431-4452
10. Delivery cost is at the buyer's expense.
11. Purchase payment is due on sale day.

Commercial Bred Females

These females were sorted according to age and due date. With that, several LOTs will have two drafts, an A Lot and B Lot, either signifying age or due date. The buyer has the option of five head up to the entire group with the option of rolling into the next lettered LOT.

Bred commercial females sell immediately following the bulls on Tuesday, November 29.

1

55 Early Calving AI Bred Angus Heifers

Due to calve: January 29

- An excellent set of heifers that are bred up early. These calves will come easy and wean heavy.
- Selected right out of the registered herd.
- Expect these heifers to start calving earlier than projected due date.
- Tagged 5101 to 5155
- Confirmed AI bred to our featured calving ease sires primarily to STEVENSON ROCKMOUNT RX933.

Commercial Females

TWO YEAR OLD BULLS

These coming two year old bulls were selected last spring. These bulls were raised from birth to weaning without creep. From weaning these animals were fed a high roughage growing ration.

An explanation of the information is printed on page 5. Bulls are put into contemporary groups at weaning based upon their ranch origin and the conditions they were raised under, maintaining these groups through yearling and ultrasound makes the data and ratios provided more meaningful to our customers. Pertinent individual performance birth weights and ratios will be included within the footnotes. Understand, because the bulls are in different contemporary groups, a ratio of 100 will not necessarily correlate to the same weight between the different groups.

These bulls were grown on summer pasture with NO supplement. We demand these bulls to be hardy and sound and develop them that way. No hoof trimming here.

These bulls are guaranteed breeders. They have all passed a breeding soundness evaluation including a semen test. All bulls offered in the sale have tested BVD-PI negative. All non-virgin bulls are indicated in the footnotes and have been trich tested per current Montana requirements.

RETAINED INTEREST - we are selling FULL POSSESSION and 2/3 REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining 1/3 revenue-sharing semen interest simply allows Stevenson Angus the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact Stevenson Angus.

Montana Angus Tour 2016
 Central Montana
 Stevenson Angus Stop

BULL CALVES

The bull calves offered in this Fall Sale are the top end of the natural and embryo calves out of mature cows born at Stevenson Angus in January and February. Calves out of first calf heifers are held over for our spring sale and calves born in March and April will be sold as long yearlings in next year's Fall Production Sale.

These calves were all born and raised in Central Montana near Hobson. The calves in this offering were raised from birth to weaning with no creep. After weaning, the calves are fed a high roughage growing ration. These bull calves were weaned and weighed from August 22nd – 25th.

An explanation of the information is printed on page 5 of the catalog. These bulls are members of large contemporary groups within the Stevenson Angus herd. Because they are grouped by growing conditions, a ratio of 100 will not necessarily correlate to the same weight between the different groups. These bulls have all tested BVD-PI negative.

Wintering arrangements are available on bull calves purchased in the sale. For \$300 per head, they will be wintered and delivered after our March bull sale. Wintered bulls will have yearling and ultrasound data collected and recorded to AHIR. They will also pass a complete breeding soundness evaluation, including semen test, prior to delivery in the spring.

While these bulls are guaranteed breeders, we recommend that bulls not wintered at Stevenson Angus be fertility tested by a certified veterinarian prior to use next summer.

RETAINED INTEREST – we are selling FULL POSSESSION and 2/3 REVENUE-SHARING INTEREST in every bull in this sale. The bull you purchase is completely in your control regarding how you handle the bull and your natural service use. You receive 100% salvage value of the bull. Retaining 1/3 revenue-sharing semen interest simply allows Stevenson Angus the right to share in collection of semen, use of semen in our herds and the right to share in semen sale revenue if semen sales become a possibility.

Realistically, we will collect semen on a very small percentage of the bulls selling. It will be an even smaller number of bulls that will market semen. However, we realize that many promising bulls are identified after they have proven themselves in natural service. If you have any questions or concerns about our retained interest policy, please contact Stevenson Angus.

- Herd bull, LOT 223 embodies our goal for optimum balance
- His sire WEIGH UP meets the mark with every measurable trait, progeny have a rapid early growth curve, proven to enhance carcass and are honestly sound
- From the herd bull producing PRIDE cow family, his dam is one of our all-time greats
- Dam is a sister to ROCKMOUNT, HERO and CE DELUXE she posts 4 NR 105, 4 YR 102 and 4 RE 106
- Grandam posts 4 NR 103, 4 YR 111, 74 IMF 100 and 74 RE 102
- Maternal brother STEVENSON TEMPLETON 3308 topped our Fall 2014 Sale at \$28,000 to Vin-Mar Angus
- Study his EPD percentile rankings, he will cover a lot of bases with the right kind and leave a fantastic set of daughters
- Genomic standout, his i50K percentile rankings are the best we've ever identified.
