## 48<sup>th</sup> Annual Production Sale

**Sale Day Phone Number**  
(406) 423-5750

100 Registered Angus Females sell on  
**Sunday, November 30, 3:00 p.m. (mst)**  
or one hour after the conclusion of Basin Angus' Female Sale

1900 Commercial Females & 750 Bulls sell on  
**Tuesday, December 2, 8:00 a.m. (mst)**  
Please see our separate bull sale book.

### Sale Location

The Original Stevenson Sale barn is 1.5 miles south of Hobson.  
See map back cover.

### Auctioneers

Joe Goggins and Roger Jacobs

### Sale Staff

Jerry Gliko..... Western Livestock Journal  
John Goggins..... Western Ag Reporter  
Eric Mack ..... Western Beef Producer  
Don Ravellette ..... Cattle Business Weekly  
Don Rehm ..... Special Assignment  
Andy Rest ..... Angus Journal  
Terry Robinson ..... Farm & Ranch Guide  
Jeff Thomas..... Prairie Star and Montana Angus News

### Superior Livestock Auction

Sunday's sale will be broadcast on  
www.SuperiorLivestock.com only.  
Tuesday's sale will be broadcast on  
www.SuperiorLivestock.com and  
RFD-TV, Dish Network channel 231  
and Direct TV channel 379. A preview on a per lot basis is  
available at www.SuperiorLivestock.com as well as our website,  
www.StevensonGenetics.com. For a buyer's number or  
additional information regarding our satellite sale, please call  
Superior at Fort Worth, TX 1-800-431-4452.

### Sale Order

Cattle will sell in consecutive catalog order.

### Sight Unseen Purchase Guarantee

Sale Day Phone - (406) 423-5750. Buyers unable to attend the  
sale may call or send their bids to any of the Representatives  
listed or directly to Stevenson Genetics. We provide a complete  
satisfaction guarantee for cattle purchased in this manner.  
When cattle purchased "sight unseen" are delivered, the buyer  
can inspect the cattle. If they are not as represented, simply  
put them back on our truck.

### Transportation

Billings and Great Falls are both served by several major  
airlines. Lewistown now services a direct flight from Denver  
with Great Lakes Air. Private planes may land at the Lewistown  
Airport. Please contact Stevenson Genetics in advance for  
transportation from the Lewistown Airport.

### Accommodations

The following motels are located in nearby Lewistown. For  
reservations, contact either the Stevensons or the motel of  
your choice. Remember to ask reservation departments for  
Stevenson Genetics Sale rates.

Yogo Inn .....1-800-860-9646  
Super 8 Motel ..... 406-538-2581  
B&B Motel ..... 406-538-5496  
Mountain View Motel .....1-800-862-5786  
Meadow Brook B&B (Hobson) ..... 406-423-5537  
Gumbo Flats B&B (Hobson) ..... 406-423-5565  
Hughes Mountain Ranch (Stanford) ..... 406-566-2640

### Announcements

Announcements from the auction block take precedence over  
any printed material.

### Herd Health

All cattle will sell with proper health papers for interstate  
shipment.

### Payment

Payment is due in full sale day unless prior arrangements have  
been made. Interest will be accrued on over due accounts.  
Even if an invoice is to be sent, please check in at the office.

### Insurance

Insurance will be available on Sale Day. We encourage all  
purchases to carry insurance.

### Delivery

For all cattle purchased over the phone or through  
Superior Livestock, Stevenson Genetics will be in contact  
following the sale to arrange delivery and payment. Buyer  
is responsible for delivery expense.

### Inspection of Cattle

Our cattle are available for inspection at the ranches any time.  
We invite you to come before the sale to visit, see the sale cattle  
and view our cow herds.

### Food

Dinner will be provided the evening of Sunday, November 30  
following the Registered Female Sale. Breakfast, lunch and  
dinner will be provided Tuesday, December 2.

### Terms and Conditions

The cattle sell under the suggested terms and conditions of  
the American Angus Association.

This catalog is proudly  
produced in Montana and  
printed on American made paper.

*Stevenson Genetics will have the latest GeneSTAR information available from Pfizer Animal Genetics on Sale Day!*

Pfizer Animal Genetics, a business unit of Pfizer Animal Health, is an innovation driven genomics company developing a portfolio of world class DNA technology products and management solutions. Our mission is to promote excellence in the beef industry through the discovery, independent validation and commercialization of genetic tools that add value and enable producers to positively impact the economics of the beef industry. By utilizing a simple DNA test, producers in all sectors of the beef industry are able to make better management decisions that will improve the quality of their herds and create a long-term positive economic impact.

### GeneSTAR Feed Efficiency

The GeneSTAR® Feed Efficiency consists of four markers which together identify as much as a 15% difference in daily feed consumption with no affect on other traits like Average Daily Gain, Carcass Weight, Quality Grade or Yield Grade. Producers can use the GeneSTAR Feed Efficiency test to identify up to a \$70 difference in feed cost between animals when ration costs are at \$225/ton. In the case of GeneSTAR Feed Efficiency, the Genetic Progeny Difference™ (GPD) is expressed as fewer lbs of feed eaten per day. As such, a more negative number means a more efficient animal. In other words, an animal with STAR results of 2,2,0,2 and a GPD of -3.48 will eat 3 lbs less feed each day than an animal with STAR results of 0,0,2,0 and a GPD of -0.48.

### GeneSTAR Tenderness

GeneSTAR® Tenderness was the first multi-marker single trait test commercially available to the beef industry. In its current form, it combines three markers from two different and independent genes.

GeneSTAR Tenderness identifies animals that are more likely to produce tender cuts of beef. GeneSTAR Tenderness is a DNA marker test for two important genes, Calpastatin & Calpain, involved in the post-mortem tenderization process of beef. Animals carrying the favorable forms of the genes have been found to significantly reduce the proportion of “tough” eating experiences. However, through the use of DNA tests there is now an effective and efficient tool available to use this knowledge in making breeding and management decisions.

### GeneSTAR Quality Grade

GeneSTAR® Quality Grade is a DNA genetic marker panel test offered by Pfizer Animal Genetics, which identifies the presence of four major genes associated with Quality Grade and marbling. This Panel Test includes TG5, which was the first gene marker test available to the beef industry. Each of the four gene markers in this panel have been found to be highly associated with quality grade in multiple evaluations across multiple breeds of cattle. Moreover, this panel of markers is the quality grade test to have passed an independent validation by the National Beef Cattle Evaluation Consortium. By combining DNA tests with other information, such as EPDs, it is possible to make breeding decisions that are based on more precise information regarding each individual animal's genetics and to ultimately shorten the time and number of generations necessary to see practical results.

\* This Mating Design illustrates Mendelian Heredity and the probability of results from mating a 0,1 or 2 STAR Sire and Dam.

 SELLING HALF INTEREST WITH THE OPTION TO DOUBLE THE PURCHASE PRICE AND ACQUIRE FULL INTEREST.  
 Bred to calve April 19, 2009 to the \$100,000 GAR ULTIMATE.  
 Examined safe.

Owned with Thunder Creek Angus, Saskatchewan, Canada. This special feature Lucy donor continues the Lucy family tradition of high-performance outcross genetics and is described by Darrell Stevenson as having great long term earning potential. Recording the fourth highest Yearling Weight EPD and the sixth highest Weaning Weight EPD among all current dams in the Angus breed while also ranking in the top one percent for Scrotal EPD and in the top four percent for Milk EPD, this daughter of the high income-producing Basin Lucy 178E by the Pathfinder Sire Vermilion Payweight J847 records a progeny weaning ratio of 106 and a progeny yearling ratio of 108 combined with a progeny IMF ratio of 107 and a progeny ribeye ratio of 104 on four natural calves to carry on the tradition of her dam who records progeny weaning and yearling ratios of 109 on seven natural calves along with a progeny IMF ratio of 105 on 69 head and a progeny ribeye ratio of 104 on 68 head. The Pathfinder granddam of this cow recorded WR 6@109 and YR 5@113 while the Pathfinder third dam of this cow recorded WR 10@101 and YR 8@103. The impressive array of maternal sisters that have topped sales to leading Angus breeders include the featured Lot 1 top-selling cow of the 2007 Stevenson Basin Sale who sold one-half interest for \$110,000 for a \$220,000 valuation as well as the top-selling cows of the 2007 Express Sale who sold one-half interest for \$190,000 for a \$380,000 valuation and one-half interest for \$181,000 for a \$362,000 valuation plus the top-selling cow of the 2008 Express Sale who sold one-half interest for \$200,000 for a \$400,000 valuation.

This productive female from the Lucy family has a progeny weaning ratio of 114 on her first four calves and a progeny IMF ratio of 101 on 32 head after recording a phenomenal individual weaning ratio of 116 and an individual yearling ratio of 118. This female is considered by Clint Stevenson to be the most powerful cow produced in the Stevenson Diamond Dot program and she ranks in the top two percent among current dams for both Weaning Weight EPD and Milk EPD while ranking in the top four percent for Yearling Weight EPD and in the top 30% for Marbling EPD while ranking in the top 25% for \$W, the top 20% for \$B and the top ten percent for \$F. Diamond Max 180N, a son of this cow, is the Diamond Dot herd sire who is one of the all-time top-performing sons of the legendary Basin Max 602C, and he was the top-selling Diamond Dot bull in the 2003 spring sale to Deerfield Colony where he has been used heavily as an AI sire in their breeding program leaving a huge impact resulting in what is considered one of the greatest set of feeder calves produced in central Montana. Lucy 808L is a prolific donor SELLING OPEN AND READY TO FLUSH.

# THE PEOPLE BEHIND STEVENSON GENETICS

**Stevenson Angus Ranch** is owned and operated by Keith and Roberta Stevenson and their four sons. Darrell and his wife Sara are home working on the ranch and have two children — Craig and Claire. Bob and his wife Robin are also home working on the ranch. Mike has chosen a career in Bozeman, MT and Jake has recently returned to the ranch.

**Stevenson's Diamond Dot** is owned and operated by Clint and Adana Stevenson, along with Clint's mother, Marian Stevenson. Clint and Adana have five children — Wayne, Faith, Abigail, Rachael and Carson.
