**Bred commercial females sell at
8:00 a.m. MST on Tuesday, December 2**

Terms & Conditions for Bred Commercial Females

1. Bred females will be sorted and sold according to age, size, ranch origin and calving date.
2. The buyer has the option of five head up to the entire grouped lot. Lowest consecutive tag numbers will be the sort.
3. They have been set up with Preg Guard Gold 10 vaccine guidelines. Heifers received first shot prior to breeding and second shot after November 1. Cows receive annual booster shot after November 1.
4. They have been poured with Dectomax or Ivomec after November 1.
5. All females have legible BANGs tag numbers, silver identification tag or registration tattoos.
6. All females have documented ear notch biopsy BVD-PI negative results.
7. All females are tested negative for Brucella Abortus.
8. All females will be preg checked safe with calf, unless otherwise stated. They will be preg checked by a licensed veterinarian, prior to delivery.
9. All females are descended from Stevenson Genetics' bloodlines and bred to Stevenson Genetics bulls.
10. Females will be available for viewing in sale lots at Stevenson Genetics as early as November 24. They can be viewed at www.superiorlivestock.com on a per lot basis any time prior to the sale.
11. The commercial female sale will be conducted and clerked as a Superior Livestock event. Interested buyers must register for buyer numbers with Superior Livestock at 1-800-431-4452.
12. Delivery - Superior will oversee load out at delivery and payment upon delivery. Superior has the option as the buyer representative to sort back any cattle that "don't fit". Stevenson Genetics will assist with arranging trucks for delivery and providing appropriate health paperwork.
13. Delivery cost is at the buyer's expense.
14. Purchase payment is due on sale day.

Longest Established Annual Bull Sale

Fellow Cattleman,

We sincerely appreciate your interest in these bred females and certainly believe this offering emphasizes our foremost efforts in genetic progression. As in the past, our goal is to emphasize quality in volume. This is a premier set of females offering plenty of selection, outstanding cattle, flexible calving dates all following proper health protocol.

Cattle are still being gathered and re-preg checked, so HEAD COUNTS MAY VARY on sale day.

For a quick overview, this commercial bred female sale will offer several different age groups and calving intervals for your selection. Highlights would include:

- Bred to the best bulls in the industry. Featured sire matings would be to STEVENSON CE DELUXE 1914, DIAMOND JUSTICE 901S, BASIN RAINMAKER 747L and BASIN FRANCHISE P142.
- Synchronized and AI bred heifers grouped by size and calving dates. Calving dates start in January with several sets available calving into March.
- Synchronized and AI bred cows. Same as the heifers, they will be sorted according to age and calving date.
- Select groups of sexed bull or heifer calf pregnancies.
- Cows from all age groups – featured two and three year old cows. Running age cows as well.
- Pasture bred groups of heifers and cows. Bred to the same bulls as our registered females, both heifers and cows will be offered in sorted calving intervals.
- Select group of F1 baldy heifers out of our recipient cows and Line 1 Holden Hereford Bulls.
- One group of fall calving pairs, they calved between August 20 and September 30. Calves are sired by Diamond Max 180N, Diamond Payload and HA Image Maker 6550. They sell open and ready to breed.
- Young Red Angus Cows. Total dispersion of Holzer Reds, all originating from Basin Reds, two and three year old cows.
- Several groups of these heifers and cows were sorted from our registered herds. Registration papers are available for an additional \$250 apiece. Contact us for further information.

The cream of the industry will be featured in this offering. We thank you in advance for your participation and look forward to seeing you on sale day.

Sincerely,

The Stevenson Family

BAKER RANCH

Jim Baker - 406.557.2416
Larry Baker - 406.557.6227

The Baker Ranch, located in the far reaching arid climate of Eastern Montana, has been a Stevenson customer for nearly 40 years. Jim and Larry Baker, while using Stevenson Genetics bulls, have progressively increased weaning weights and have developed one of the most consistent and efficient cow herds in Eastern Montana.

Each year since 1993 Stevenson's Diamond Dot has purchased the middle cut of heifer calves from the Baker Ranch and bred and sold them to different areas around the country including Arizona, Nebraska, Texas and here in Montana. These heifers have proven to make solid, efficient cows.

The heifers in this offering are ultrasound sexed and sorted into those carrying Bull Calves and those carrying Heifer Calves.

Baker ranch sells over 300 head 600+ weight steers each year for late October delivery.

C A RANCH

Page Anderson - 406.285.4548

The CA Ranch is a family owned and operated cow-calf operation with headquarters at Three Forks, Montana. The ranch runs approximately 2000 mother cows in Gallatin, Madison, and Meagher counties. Buck and Marcia Anderson purchased the ranch in 1959. It is currently managed by the next generation: Page, Frank, Kathy and Anita. Cattle are the primary business, although the ranch also runs a guided hunting camp for elk and deer.

The heifers offered in this sale are the result of a program which has focused on developing moderate framed, functional cows that can thrive in a low input, low labor operation. Cows are expected to winter on pasture, calve on their own and breed back while bringing in a superior calf. They have been handled on foot and on horseback. CA practices a strict culling program. Bad feet, udders, disposition, or mothering ability are culled without exception. Careful selection, combined with 16 years of an intensive AI program make this a superior offering of heifers backed by Stevenson genetics.

DEERFIELD COLONY

Eli Stahl - 406.538.7824

Gene Stahl - 406.350.2054

Deerfield Colony has purchased bulls from the top of the Stevenson program for the past twenty years. The cow herd has been based on top maternal sires including BASIN EMULATION 5653, BASIN RAINMAKER 814Z and MED ROCK TRAVELER JR. In recent years BASIN MAX 602C, BASIN MAX 104J, DIAMOND RAINMAKER 154E and sons of PAYWEIGHT have been used heavily in the herd.

Year after year, Deerfield calves have topped Superior's Corn Belt Classic. Last month their 400 steer calves weaned straight off the cow at 789 lbs (with no steers held back). This means that the gross production per cow averaged well over \$900.

Bred to PAYWEIGHT sons, the calves out of this years offering are sure to tip the scales and top the sales next fall and continue to wean easy fleshing, high production calves for many years.

HOLZER RANCH

Keon Holzer - 406.566.2649

Keon and Billie Jo Holzer ranch north of Hobson just a few minutes. A long time established ranch of the Judith Basin, the Holzer family has worked many years with Stevenson Genetics as cooperators for embryo transplant and more recently with sharecropping cattle. They have chosen to disperse their entire registered Red Angus herd in order to make room for these growing share cattle numbers. These Red Angus females came out of the heart of Basin Red's replacements. They are descended from the Angus breed's most proven and predictable sires and have many years of production left in them.

HUGHES NEWFORD RANCH**John & Betty Sampsel - 406.566-2700**

The Hughes Newford Ranch has been operated in the foothills of the Little Belt Mountains of Central Montana since the late 1800's.

At Hughes Newford the Sampsel's have developed a cow herd that are able to thrive in extreme environments. Most winters the cows are not supplemented with hay until February. Calving begins in April and the cattle are expected to wean a 625# calf the last week of October.

Heifer calves are wintered at the home place, and summered on leased pasture in the Missouri Breaks, north of Winifred, MT.

The heifers offered in this sale have been Ultrasounded to calve within a 45 day period beginning the last few days of March.

Bred to calving ease sons of CE DELUXE, BENCHMARK, COAL BANK and 602C purchased from Stevenson Genetics. This fancy set of heifers promise to calve on their own and bring in an easy fleshing, high growth calf next fall.

37**HUGHES NEWFORD RANCH****63 BRED HEIFERS**

Est. Avg. Wt: 1010# **Origin:** home raised
Calving Due Date: April 1, 2009 for fifty days
Service Sires: sons CE DELUXE, BENCHMARK, COAL BANK, 602C
Breed Type: Purebred Angus heifers.
Frame: Medium **Flesh:** Medium
Est. Wt. Var: Fairly Even
Feed: Heifers are grazing on native pasture and hay bottoms with free choice Vigortone mineral.
Buyer Option: Buyer has option to take all or a minimum of 5 head.
Comments: Nice set of bred heifers bred to Stevenson Genetics bulls by CE DELUXE, BENCHMARK, COAL BANK and 602C. Hughes Newford has established a solid vaccination program. These heifers should mature to 1300 lbs cows.

Mikkelsen Watson

Spike Mikkelsen - 406.423.5213

Spike Mikkelsen grew up raising cattle in the Judith Basin. He, along with his wife Judy and their five children continue the tradition today. Mikkelsen's raise a small registered Angus herd out of Stevenson genetics. Along with the registered and recip cows, Spike and Judy run a predominantly black commercial cow herd with a strong Stevenson influence.

Their sale heifers have never seen a feedlot and will be twelve to thirteen months old at calving. They run a low maintenance commercial herd that calves beginning April 1 all on their own.

Stevenson Genetics' 48th Annual Production Sale

AMERICA'S LONGEST ESTABLISHED ANNUAL BULL SALE

2700+ ANGUS SELL!

NOVEMBER 30, 2008

TWO BIG DAYS!

DECEMBER 2, 2008

Stevenson Moneymaker R185

Birth	Wean	Milk	Yrlg	Marb	RE	\$B
+3.0	+62	+24	+112	+39	-.11	44.97

100 REGISTERED FEMALES

★ SELLING SUNDAY NOVEMBER 30 ★

Elite Donor Cows and Bred Heifers

Top end replacement heifers representing our foremost carcass genetics and historically productive cow families. Top donor prospects, time-proven cows and fresh new-age genetics are represented.

1900 COMMERCIAL BRED FEMALES

★ SELLING TUESDAY DECEMBER 2 ★

8:00 am MST

Approximately 1200 Bred Heifers & 700 Bred Cows

The bred heifers are a solid set of Angus and Angus-influenced heifers, raised on our ranches from the same bloodlines as our registered cattle.

A select group of heifers will also be offered from some of our most progressive customers. Synchronized AI bred and sell ultrasound pregnancy tested to calving date. The commercial cows to be offered will be sorted according to age group and calving date. The entire commercial female sale is being handled like a traditional Superior sale.

We are hosting the sale, but Superior will be conducting and clerking this portion of our sale. Interested buyers need to register with Superior prior to the sale.

BULLS WITH LENGTH, CAPACITY AND MUSCLE

SELLING 750 BULLS

★ ON TUESDAY DECEMBER 2 ★

Immediately following the 8 am Commercial Female Sale

350 Twos & 400 Yearlings

Many half and three-quarter brothers sell. Sons of Moneymaker, CE Deluxe, Justice, Franchise, Coal Bank, Payweight and On Target plus many other breed leading sires, including Basin Max 602C, Image Maker and In Focus sons and grandsons.

Complete PERFORMANCE DATA and HPDs are provided on all bulls.

Bulls with bred in PERFORMANCE to ADD POUNDS to your calf crop.

Bulls are sold in volume so they are AFFORDABLE by everyone.
